

# Template Week 7 – Host your website on GitHub

Student number: 580693

Domain name (URL) of your website on GitHub:

<https://klimenttenev.github.io/KGTenev.github.io/>

Relevant screenshots + motivation:

The screenshot displays a web browser with two tabs. The top tab shows the website [klimenttenev.github.io/KGTenev.github.io/](https://klimenttenev.github.io/KGTenev.github.io/). The website has a light blue background with the heading "Hello! I am Kliment!". Below the heading is a photo of a person standing next to a blue and white car. Underneath the photo, it says "My hobbies include coding, 3d designing. I enjoy walking, running and swimming." and there is a small video thumbnail of a person. The bottom tab shows the GitHub repository [github.com/KlimentTenev/KGTenev.github.io](https://github.com/KlimentTenev/KGTenev.github.io). The repository page lists files: index.html, kliment1.jpg, kliment2.jpg, message.txt, week1.html, week2.html, week3.html, week4.html, week5.html, week6.html, and week7.html. Each file has a link to "Add files via upload" and a timestamp of "4 minutes ago". On the right side of the repository page, there are sections for "Releases" (No releases published), "Packages" (No packages published), "Deployments" (1 deployment: github-pages 2 minutes ago), and "Languages" (HTML 82.9%, CSS 17.1%).
